A properly fitted helmet should not be able to move from side to side OR up and down when the strap is fastened.

Single, Double, or Electric... What Shield should I choose?

 **Single**

Used for:

Description:

The Single Shield is recommended for both Offroad and Street use, but is not recommended for Snowmobile use.

 **Double**

Used for: Includes:

Snow
Breath Guard

Description:

The Double Shield is the choice for many Snowmobilers as the double pane helps to reduce or eliminate fogging for the rider, allowing for better visibility.

 **Electric**

Used for: Includes:

Snow
Breath Guard

Description:

The Electric Shield is a Great Choice for the Snowmobile Enthusiast where harsh temperatures and inclement weather play a factor. In most cases, fogging is eliminated, giving the rider maximum visibility.

PLEXUS PLASTIC CLEANER PROTECTOR & POLISH

DESC.	QTY/CS	PART #	MFG #		
7 oz	12	PL20207	20207	15.95	A
13 oz	12	PL20214	20214	22.95	A

Originally developed for use in aviation, Plexus is quite simply the most effective product you can buy for cleaning, protecting and polishing clear and colored plastics. Plexus actually seals the pores of the plastic. It makes small scratches less visible, leaving a surface that is fresh, lustrous and protected. Plexus dries perfectly, no smears, no scratches, no smudges and no oily, tacky or sticky residue. It's anti static and can be applied in seconds.

Around your house try using Plexus on your counter tops and appliances. Keep your refrigerator, dishwasher, ovens, even your microwave shinier and cleaner. Anyplace that might contain plastic, use Plexus!

Use Plexus on your computer screen to keep it clean and fingerprint-free. Or use it on your eyeglasses to keep them clean. (Don't forget about your sunglasses too!)

The most effective product for cleaning, protecting and polishing clear & colored plastics.

NOVUS PLASTIC POLISH

NOVUS

RECOMMENDED FOR USE ON:

Plexiglass • Lexan • Lucite • Uvex • Acrylite

#1 : PLASTIC CLEAN AND SHINE

Gently cleans all plastics without scratching. Leaves a lustrous shine that resists fogging, repels dust, and eliminates static. Resists finger marking. Contains no abrasives or harsh chemicals. Leaves a smooth, clean, greaseless shine.

DESCRIPTION	PART #	MFG #		
2 oz	NO7026	7026	2.40	G
8 oz	NO7020	7020	4.95	G

#2 : FINE SCRATCH REMOVER

Removes fine scratches, haziness and abrasions from most plastics. With repeated use, NOVUS No. 2 restores faded and discolored plastics. Removes the damage instead of filling it in. Buffs out quickly. After restoring, seals with a coat of polish.

DESCRIPTION	PART #	MFG #		
2 oz	NO7033	7033	4.45	G
8 oz	NO7030	7030	6.80	G

#3 : HEAVY SCRATCH REMOVER

Removes heavy scratches and abrasions from most acrylic surfaces. Use when damage is too severe to be restored with NOVUS No. 2 polish. Requires use of NOVUS No. 2 for final finishing. Not recommended for use on coated plastics.

DESCRIPTION	PART #	MFG #

HELMET CARE PRODUCTS

KLEER-VU ANTI FOG CLEANER

Kleer-Vu cleans, prevents fogging and reduces dust build up on all types of lenses. It can be used safely on plastic or glass lenses, coated or otherwise.

Easy to use, just spray directly onto the surface or onto a cloth then wipe lens clean with a soft cloth. It becomes more effective with repeated use. Kleer-Vu is long lasting whether applied directly and then wiped, or sprayed onto a cloth before wiping.

PRE-PACKAGED DISPLAY UNIT Contains:

HELMET FRESH

Helmet Fresh spray removes the odors associated with helmets and other sporting equipment. Simply spray the inside of your helmet after you take it off, and let it air out. Helmet Fresh attacks bacteria and mildew - the source of helmet odor - leaving a fresh, clean smell. It does not mask the odors, it eliminates them. Comes in a handy 4-oz spray bottle with a protective cap over the pump. It is environmentally friendly, non-toxic, and non-allergenic.

DESCRIPTION	PART #		
4 oz. spray bottle	HF100	7.25	H

S100 SPECIAL SURFACES CLEANER

S100 Special Surfaces Cleaner is a waterless spray-on, wipe off cleaner that cleans up helmets, visors, instruments and windshields in seconds. Bugs, rain spots and road film disappear instantly leaving nothing but a nice clear surface! Here's what some users said: "...used on my helmet visor...it appears so clear it seemed like I didn't have my visor down". "I was amazed how it gave back life to the cover on the speed and tach gauges." Safe for use on polycarbonate and acrylics such as Lexan®, Lucite®, Plexiglas®, fiberglass, etc. Perfect to take along in the saddlebag.

ADJUSTABLE STRAP

Whether on a motorbike, skiing, snowboarding or freefalling, one can expect superior functionality, comfort and durability from Bobster® goggles. Specifically designed to conform to various shapes of faces, the goggle frame creates a close seal and significantly reduces wind blasts and vibrations. The adjustable head strap provides maximum retention and security while the foam allows ultimate airflow to prevent lenses from fogging.

SEATTLE

FEATURES:

The Seattle is a sleek woman's riding sunglass that protects your eyes from flying debris. With a great wrap to the face and foam lining the interior of the eyeglass, the Seattle provides excellent wind protection. There is just a touch of femininity added with the rhinestone details on the temples to make sure you look stylish while keeping it functional.

DESIGNED TO STOP BREATH FOGGING OF YOUR HELMET SHIELD, EYEGASSES AND GOGGLES, PERIOD!

NO-FOG® is the best selling legendary "Original" Helmet Breath Deflector in the USA & Canada with the best industry leading fog rating. Guaranteed to stop breath fog on eyeglasses, helmet shields and goggles. Provides warmth, comfort and a perfect fit on your face. New "Smart Fit™" design nose seal for NO-FOG® Snowmobiling! Also helps to warm and moisten inhaled air for cardiovascular relief. Awesome to wear in any kind of cold weather.... Work or Play!

.... Our masks are endorsed by satisfied customers worldwide! Beware of other neoprene masks with questionable origins. Our people actually work and ride in the most extreme cold weather environments on earth and know how to make a great product. For superior quality and fog-fighting performance.... Trust NO-FOG®!
More professionals wear NO-FOG® than any other™!

007D HIGH PERFORMANCE

- Features a new High Performance Ventilation System (HPVS).
- Dry Face™ technology. No more damp mouth.... simply amazing.
- No bottom fleece means less bulk inside jacket for comfortable head movement.
- Additionally on this mask we use a Velcro® less-type fabric that creates less bulk behind neck for a slimmer fit inside your helmet.
- Exclusive removable by Velcro® upper head Z-Strap™ for complete rider adjustability
- New "Smart Fit™" design nose seal for NO-FOG® Snowmobiling!

STAR SERIES HANDGUARD GAUNTLET

Keep your hands warm and dry no matter what the conditions. Designed to work with our Star Series handguards, these gauntlets keep out the cold, wind, rain, and mud and are great for snowmobiles, ATVs, and motorcycles. The unique "stay-open" design makes it easy to grab your bars and see your controls. The gauntlet extends your riding season and allows you to ride with thinner gloves, giving you a better feel.

HOW BAFFIN DEVELOPS BOOTS THAT ARE POLAR PROVEN

Over a decade ago Baffin started out by revolutionizing the waterproof boot market as one of the first companies to use injection moulding of easily recyclable synthetic polymers in place of traditional vulcanized rubber. More than a decade of constant R&D and in-field testing has led Baffin to produce the leading edge, technical footwear that we have available today.

THE SOLE OF A BAFFIN BOOT

Every aspect of a Baffin out sole has been meticulously thought out and developed to be the most functional possible. From the tread patterns, designed for maximum grip in their specific applications, to the materials used to strike the perfect balance between traction, flexibility, light weight and durability, the construction of the contact point between a Baffin boot and the terrain is second to none.

THE BAFFIN INNER BOOT SYSTEM IS UNIQUE

Our multi-layer inner boot system creates a warm boot because body moisture is wicked away. A Hydromax II layer, similar to the material used in babies' diapers, combined with a B-Tek four channel hollow fibre layer acts as a moisture control system keeping the foam dry and funneling water vapor out of the boot as opposed to felt packs used in other boots that compress over time and retain water.

We've updated our innermost layer to an improved "Thermaplush". It's a chamois leather-like material that feels remarkably soft and smooth. A vaporized aluminum membrane has a silver surface which reflects energy back towards the foot. In our boots that are rated for very low temperatures, we use two of these.

FASTENING SYSTEMS FOR FUNCTION AND CONVENIENCE

Unlike footwear for average settings, under harsh conditions it is essential that boots can be taken on and off easily with gloved hands. All our buckles are made exclusively for Baffin out of the best cold crack resistant materials available. Our boots can be secured with either a single or double buckle.

MARSH SERIES

The Marsh Series keeps you warm and dry, is super comfortable and wears like iron while looking great. Comfort that lasts, 7 mm of cushiony warm neoprene and vulcanized rubber over the ankle give the Marsh Series all day, all season wearability. Early fall through late spring, this does it all.

POLAR SERIES

FEATURES

Baffin's Polar Proven specialized boots are rated to perform at -100°C/-148°F. It's hard to find anywhere on the planet that truly gets that cold but there are plenty of days when it feels that way. On those days you need the comfort and warmth that our Polar Expedition Series delivers.

Tested at both the North and South Poles, these boots perform flawlessly even under the most demanding conditions. Our unique eight-layer Thermaplush liner, double heat reflecting core, and cold-resistant polyurethane mid sole bonded directly to the shell and then attached to a premium polar compound rubber out sole delivers all-day satisfaction. Lightweight and featuring easy-to-use fastening buckles, this premier line of boots is the template on which our other lines of footwear are made. Constructed for comfort and designed to deliver the ultimate in performance no matter where you go, no matter how severe the weather. We've thought about all the technical features to make the Polar Expedition Series the perfect choice for extreme conditions - so that you don't have to when you venture out.

POWERSPORT SERIES

FEATURES

These boots defined a category of footwear for winter motor sports and they still lead the field. They were inspired by snowboard and motocross boots. While snowboard boots are warm and stable they do not provide the right stance. And motocross boots provide good protection but are not well enough insulated. Powersport Series boots are warm and comfortable even on long winter sled and ATV rides. They use our unique 8-layer inner boot system with Thermaplush to provide lightweight, thermal insulation and moisture management. They are rated to -70°C/-94°F. At the same time the carbon fiber leathers help protect the lower extremities from impact and penetration injuries.

SOFT SHELL SERIES

Have you ever thought what the perfect winter sport boot would be like? One that could work great with a snowshoe, on top of a snowmobile or blasting down a hill on a toboggan! Have you ever wondered what a light weight breathable waterproof all year shoe would be like? Footwear that could take you through all 4 seasons, from the slop of winter to the day hikes of summer. Well the new Solo Soft Shell Series (S4) has both. The Snosport is designed with a moulded tendon guard and ledge to allow for easy snow shoe binding compatibility. This over the ankle boot has our B-Tek insulation breathable membrane and a high grip supportive sole. The rest of the line has the same ultra light weight construction without the insulation, allowing for all season waterproof breathability.

PROTECTION

FEATURES COMMON TO ALL TEKVEST MODELS:

- Tough, hi-tenacity, vented mesh and rip-stop nylon shell with soft-armor configuration.
- Closed-cell foam & UHMW plastic laminate armor.
- A level of all-round protection currently not available in the off-road market.
- UHMW (Ultra High Molecular Weight) plastic - 8 times more cut resistance than HDPE.
- More flexible than poly carb MX gear.
- Race-proven armor configuration similar to ProLite SnoX TekVest.
- Excellent back support and "electric blanket" type warmth for the lower back and kidney areas for cold weather riding.

TRAIL PRO

- Our top of the line trail TekVest model incorporates a blend of Pro Lite and Super Sport features.
- An attractive, quick on and off design that eliminates the need for a front zipper.
- This is the ultimate upper body protector for any aggressive trail rider who would like more frontal protection and ventilation than currently offered by the popular Super Sport model.
- Built-in cargo clips enable the rider to add one of our optional packs at any time.
- Extensive use of high-tenacity mesh panels for enhanced ventilation.
- Reverse entry front pockets with waterproof zippers and built-in car key clip.

FLAK JAK™ LT IMS

Flak Jak Technology:

- *Nytrolyte padding*
- *Suspended netted shoulders*
- *Crystal clear polycarbonate anatomical plates*
- *HRP's exclusive Impact Management System (IMS) - utilizes the management of air to disperse the energy of impact*
- *Full range of sizes to assure a proper fit*

The world's first chest protector designed to be worn with the Leatt-Brace™. The current chest protectors on the market just don't work with the Leatt-Brace™. Extending straps, cutting and hacking up existing protectors is ridiculous and flat out unsafe. We designed the new Flak Jak™ LT to work with the Leatt-Brace™. The shoulders are designed to fit around the brace and not interfere with the brace or the rider's mobility and comfort, while still maintaining the protection expected from the HRP Flak Jak™. We have utilized all the Flak Jak™ technology and added a latch system called the E-Leat Latch System (patented), which allows the chest protector to be placed on the rider after the Leatt-Brace™ has been correctly positioned on the rider.

KNEE AND SHIN GUARDS

XT SHINS

The XT takes knee/shin guards to a higher level of comfort and performance. The XT is slightly larger and is a completely different shape than your standard knee/shin guard designs. With its oversized knee cap and 1/2" thick impact absorbing foam, the XT gives you a whole new standard of knee guard protection.

Features:

- Vented grip lower shin plate keeps the knee guard from moving around in your boots
- UVTC cover on the upper portion helps keep your pant-liner from catching
- MKP yellow die cut plate with flexibility and protection when knee is bent
- Foam wraps around knee for maximum comfort and protection
- Anatomically cut oversize neoprene straps (trimmable for custom fit)
- Oversize knee cap for maximum protection
- 1/2" thick impact absorbing foam
- Removable, washable liner

FLAK TECH SHINS

This knee shin guard has been designed with all the great features of the Flak Shins like the cut away plastic to fit under your boot, a washable removable liner and 1-1/2" woven elastic straps. We added a new grip pad to hold these shins in place and like the Flak Shins, these guards are anatomically correct to fit your left and right legs.

KIDNEY BELTS

K-RIB WRAP

Our completely new kidney rib belt design is like no other. Designed to be used with suspenders as a mid back/rib guard, or remove the suspenders and use as a lower back and side protective kidney belt. Kidney belt designs have been stagnant since AXO introduced the hard back belts in the late 1980s, until now. The K-Rib Wrap is a completely new concept that takes protection to a new level.

Features:

- Bio foam & plastic molded parts
- Venting
- Rib panels
- Removable suspenders
- 3 strap attachment system
- Internal molded bio foam increases air circulation

IMPACT WRAP

Maximum protection with minimum restriction. A combination of molded bio-foam, plastic and our classic Flak Wrap design make this kidney belt as protective as it is unrestrictive.

Features:

- Anatomically cut
- Bio-foam & plastic molded parts
- Easy pull & release tabs
- Full size range
- Top quality knit elastics
- Double pull design

FLAK WRAP

The Flak Wrap is the most comfortable and lightest high performance torso support system available. We designed the Flak Wrap to be unbinding by cutting the belt correctly and offering a broad size range so it fits over the hips. By not locking in the hips, we allow the rider the free pivoting action needed when going through whoop sections and dropping into turns without compromising the support needed for the lower front abdomens and kidneys.

ELBOW PADS

XT ELBOW / FOREARM GUARD

The all new XT elbow/forearm guard takes elbow/forearm protection to a higher level. You no longer have to accept cut up and bruised forearms after riding through tight single track and desert terrain.

Features:

- Anatomically molded plastic shell
- Low profile molded elbow cap
- Vented adjustable neoprene strap system
- Form fitting and lightweight with plenty of protection
- Ergonomic and anatomical elbow cap provides comfort and mobility
- 1" lower wrist closure strap for a secure fit
- Reinforced HDPE for maximum forearm protection
- Upper loop with laces helps to eliminate elbow sliding

ELBOW JAK

The Elbow Jak is designed to cover your forearm, elbow and biceps. Molded plastic and dual density polyester covered molded foam produce the anatomic shell. Vented adjustable neoprene strap system sets the tension on guards to keep them in place without them being too tight, thus not adding to your arm pump. For those of you who use the bicep guards on your chest protectors, we made the biceps removable on the Elbow Jaks so they won't be in the way.
